

DAEHEE HAN

Chungbuk National University
handh011018@gmail.com
+82) 010-7554-1667

EDUCATION

Mar. 2020 ~ Present	Chungbuk National University Department of Psychology <i>Bachelor Student</i>	Cheongju, Korea
Sep. 2023 ~ Present	Chungbuk National University Department of Computer Science <i>Bachelor Student</i>	Cheongju, Korea

RESEARCH INTERESTS

- Machine Learning and Deep Learning
- AI for Neurological and Psychiatric Disorders
- Human-Inspired AI

RESEARCH OUTPUTS

- Minseok Park, Daehee Han, Jonghyun Ko, and Kyuri Jo (2025). A Comparative Analysis of Graph Representation Learning Models for the Initial Embedding Stage of the HMGRl Framework in Drug-Drug Interaction Prediction. Proceedings of the Korea Software Congress (KSC 2025), pp. 1121-1123.

AWARDS

- Encouragement Award, Undergraduate/Junior Paper Competition, Korea Software Congress (KSC 2025)

SKILLS AND TECHNIQUES

- Programming: Python, R, C/C++
- Frameworks: PyTorch, scikit-learn
- Data Processing: NumPy, Pandas

RESEARCH EXPERIENCES

- Research Intern, BML Lab Department of Computer Engineering, Chungbuk National University (Jan. 2025 – Jun. 2026)
- Research Intern, Brain Science and Processing Lab (BSPL) Department of Brain and Cognitive Engineering, Korea University (Starting Jun. 2026)
